SENSELESS SLAUGHTER OF WILDLIFE

What kind of people have we got out there who would want to harm a beautiful, majestic White Bellied Sea Eagle? In early January, Dunc was out fishing and spotted one of these eagles which seemed to be in distress and could not fly. Dunc got up close threw it some fish to sustain it, marked the spot and came in and reported it to the ladies from Pelican and Sea Bird Rescue Inc. He then ferried them out the next evening and they were successful in capturing the bird which was quickly taken to Australia Zoo for assessment.

Hoping the injured eagle would recuperate, we were horrified to learn that the bird had been shot. The bullet had passed through the chest and lodged in the wing. Sadly the bird had to be euthanased.

Many thanks Duncan for trying.
